Family History Lead Consultant Kaw Valley Ward

We will discuss how to create a free account in Family Search, start your family tree and connect to the largest database for family history in the world.

Family Search is the largest shared online family tree in the world. (1.2 billion ancestors) Build your family tree with information already available, information from others in your family and connect and collaborate globally with those in your family. You can share stories and pictures as well as documentation you may possess.

Topics covered include:

- Core Products,
- News, and Information, and
- How to Get and Give help.

Ask questions you may have concerning using FamilySearch.
