

Addendum #1:

Q: Can you provide drawings and dimensions for areas where the system will be removed and then installed?

A: Yes:

- A pdf labeled workroomlayout.pdf is included on the RFP page.
- This pdf file is a drawing of the library's basement. Measurements for the Circulation Workroom are included.
- The map only shows a partial drawing of the tunnel connected to our outside book drop. Potential vendors will need to measure that to ensure their equipment works in the tunnel.
